About

A dedicated and detail-oriented Computer Science Engineer with a strong foundation in front-end development. He possesses expertise in modern web technologies and proficiency in UI/UX design principles, and web performance optimization enables him to develop seamless digital experiences. With a passion for innovation and problem-solving, he continuously seeks opportunities to enhance his technical skills and contribute to impactful projects in the field of web development.

Education

Maharishi Markandeshwar Deemed to be University, bachelor's in computer science   SEPT 2022 – MAY 2026

- CGPA: 7.0/10.0
- **Coursework:** Computer Architecture, Data Structure, Computer Network, Design and Analysis of Algorithms

Experience

Frontend Engineer, Cod Soft – Gurugram, Haryana –Remote   JUNE 2025 – AUG 2025

- I successfully completed a Frontend Engineering internship at Cod Soft, contributing to the development of interactive web applications.
- Designed and implemented three projects—a calculator, a music system, and a stock analysis platform (Grow clone)—leveraging HTML, CSS, JavaScript, React, and Bootstrap.
- Gained expertise in building responsive, user-friendly interfaces and optimizing web performance for seamless user experience.

Projects

E-Sandesh   SEP 2024 - DEC 2024

- Developed an IT Notice Management System for streamlined communication, allowing admins to send notices to HODs, who then distribute them to students and various departments
- Implemented a centralized platform using React.js, Node.js, Express.js, and MongoDB, eliminating the inefficiency of scattered group messages.
- Solve a real-world problem by ensuring all notices are easily accessible on a dedicated site, improving communication flow within the college.
- Deployed and adopted by the college, demonstrating its practical impact and enhancing administrative efficiency in notice distribution.

Technologies

Languages: Java, Data Structure, JavaScript, SQL, HTML, CSS, Bootstrap **Framework:** Node Js, Express js, MongoDB, React js

Leadership / Extracurricular

- Demonstrated leadership skills by organizing and managing a college competition with 250 participants, ensuring smooth execution.
- Trained and supervised a team of five volunteers, enhancing teamwork and event coordination.
- Exhibited strong organizational and management abilities, successfully handling large-scale events and fostering community engagement.

Job Description

We are seeking a highly motivated and creative **Front-End Developer (Fresher)** to join our dynamic team. Ankit Kumar brings a solid foundation in **React.js**, **JavaScript**, and modern web technologies, combined with hands-on experience through internships and real-world college projects. He is passionate about creating responsive, performance-optimized web applications and eager to contribute to innovative digital solutions.

Key Responsibilities:

- Develop and maintain responsive web interfaces using **HTML, CSS, JavaScript**, and **React.js**
- Translate UI/UX designs into functional web components
- Collaborate with back-end developers and designers to deliver high-quality products
- Participate in code reviews, debugging, and performance tuning
- Continuously improve front-end skills and stay updated with emerging technologies

Skills & Technologies:

- **Languages:** JavaScript, Java, SQL, HTML, CSS
- **Frameworks/Libraries:** React.js, Node.js, Express.js, Bootstrap
- **Databases:** MongoDB
- **Tools:** GitHub, LeetCode, Visual Studio Code, MongoDB
- **Concepts:** Data Structures, Algorithms, Web Performance, UI/UX Principles
